WORK EXPERIENCE

IPN CIC - COMPUTING RESEARCH CENTER — *Mexico City, Mexico*
Social Service — Ending in April 2025

- Generating synthetic documents for a synthetic dataset using LM models.
- Analyze documents generated through LM models.

PROJECTS

FORAMINIFEROS — **June 2020 - July 2021**
Helped in the design of 3D models for a scientific newspaper in the topic of foraminifera.
- Built with Cinema 4D, Adobe InDesign

TECHDRY — **January – July 2024**
A prototype of software engineering project, made with the purpose of learning how to document software projects. was in charge of making Gantt diagrams, and design parts of the project.
- Documented using IEEE 830 and ISO standards.
- Used MS Visio, MS Project

ZORRIANA (https://github.com/mheealx/zorriana) — **December 2024 - January 2025**
A POS application for a warehouse that allows users to create clients, providers, products, employees, sales and incomes. I participated as a Back End developer and was in charge of the SQL queries.
- Built with Oracle SQL, Java and NetBeans.

MONITORING APP — **Currently**
Thesis project of a mobile application for monitoring NFC events using system logs. Made with help of Dr. Eleazar Aguirre of IPN CIC.
- Built with Android Studio and Java
- Tested on Motorola Moto G53 and POCO M5s.

SKILLS

PROGRAMMING LANGUAGES

4 years:	C/C++
1 year:	Java
6 months:	Python

TECHNOLOGIES

HTML, CSS, SQL, Cisco Packet Tracer, Git, GitHub, VirtualBox, Linux: Kali, Ubuntu, Mint, Android SDK, Unity 3D, Illustrator, Photoshop, InDesign, MatLab (for reference), MS Project, MS Visio, NetBeans.

LANGUAGES

Spanish (native)
English (B2)
Thai (A1)

ONLINE COURSES

100 Days of Code: Python (Udemy, in progress)
